

A RIB IN A BAG

Once deflated, the Compact Cadet takes up very little space thanks to its folding transom (Zodiac Nautic patent); It simply fits flat in a specially designed bag. Its set up is extremely fast: simply inflate, install the oars and then to the water! Very light and rotproof, thanks to its RIMTEC (Reinforced Injection Molding Technology) manufacturing Process, its hull Provides good stability: an exclusive Zodiac Nautic.

TECHNICAL FEATURES
