WHY A RIB?

SECURITY

The buoyancy tubes of Zodiac boats have several compartments, separated by waterproof partitions. Thanks to its important air reserves, the boat keeps its ability to float and stays virtually unsinkable when fully loaded, even with a deflated compartment.

REASSURING STABILITY

With buoyancy distributed on the sides and a low centre of gravity, Zodiac boats are almost impossible to capsize when loaded.

EXCEPTIONAL LOAD

You counted right! There are 12 football players onboard this Zodiac boat. The Zodiac boat has an exceptional weight / area-below-water ratio, giving the boat a considerable load-bearing capacity.

Gérard garnier, Futura 1987, 55 knots

REMOVABLE TUBE, A ZODIAC NAUTIC EXCLUSIVE

Built in fenders mean less stress when docking. When maneuvering, the boat will bounce without damage if it happens to lightly tap a dock or neighboring boat in the harbor.

Entirely removable. The tube can be taken apart and folded, which allows for easier maintenance, repair, transportation and storage.

CHANGE YOUR BUOYANCY TUBES?

Nothing easier. The tubes can be removed from the hull – ideal to renovate or restyle your boat at a lesser cost.

ECONOMICAL

Due to its power-to-weight ratio, rib consumes less fuel. You need a smaller hp engine to perform the same as a traditional hull.

MORE AFFORDABLE AND MORE PRACTICAL

When buying and when maintaining, the semi-rigid is less expensive than a hull. In most cases a large truck is not required to tow.

BENEFITS OF A RIB

**A TRUE 4X4
OF THE SEA**

MORE SEA-WORTHY

The unique combination of a very low center of gravity, a deep-v hull and added stabilization of the tubes gives the rigid-hulled inflatable speed and sea-crossing capacities without compromising comfort or safety.

QUALITY

THE HULL

An internal structure of rot resistant polyester built with a spar and floors network guarantees a single-block linking between the hull and deck. This results in a performance-favourable rigidity and resistance to impact in all types of loading conditions.

THE TUBES

Zodiac nautic developed a unique industrial process to assemble its buoyancy tubes: thermobonding. This process consists of welding the pieces of Strongan™ material together to offer a material that is both waterproof and durable, almost indestructible. Zodiac nautic is the only manufacturer to master the welding of all structuring materials of an inflatable boat, thus guaranteeing exceptional longevity and security.

QUALITY TEST

Zodiac nautic carefully selects the materials that constitute its boats, following strict, nonstandard functional specifications. Zodiac nautic is the only manufacturer to subject every new boat to a battery of extreme condition tests. Your Zodiac boat is sure to last. Opposite: a test of 2-meter fall

120 Years of experience and inventor of the inflatable boat, Zodiac Nautic offers products with exceptional resistance and reliability thanks to the materials and processes that are always at the cutting edge of technology.

MEDLINE

RELAXING

Perfect for long trips on the sea, the medline is a true private oasis thanks to its transformable surface, which can be transformed into a sunbathing area. Created for long day trips, the medline range is part of the new generation of Zodiac boats: rigid-hulled inflatable openly oriented towards leisure. The arrangement allows to transform the deck into a vast sun lounge, to create a “private oasis” area.

MEDLINE 660

MEDLINE 660

SPACE

The deck plans allow ease of movement. The forward sun lounge area is spacious and easily set up, as is the aft sun deck. Whether sunbathing, lunching at a beach or swimming, the equipment, comfortable seats and low maintenance buoyancy tubes, every detail is the result of the experience of Zodiac Nautic and its vast knowledge base.

MEDLINE 850

LEISURE

Extended to 5 boats, the medline range has been rethought for comfort and ease of use, whether at anchor or at sea. The dimensions and the weight of each boat has been optimized to obtain a perfect weight / power ratio in order to have moderate engine power and simplify the maneuvers for launching and storage.

MEDLINE 850

MEDLINE 740

NEW: MEDLINE 7.5

RELEASE SPRING 2019

Extra large u-shaped aft seating area, comfortably seats up to 8. Convertible to a large rear sunbathing platform.

N-ZO

PREMIUM CRUISING

Design | Comfort | Ergonomics

N-ZO CABIN

DESIGN

A unique and avant-garde line: the N-ZO embodies Zodiac Nautic's innovative traditions. A pure jewel of the seas, N-ZO is the perfect synthesis of Zodiac's adaptability and pureness of a premium design with an s-shape tube and rigid bow.

N-ZO

COMFORT

The generous height of the freeboard, provided by the dimension of its buoyancy tubes and the specific structure of the hull, turns the cockpit into a cocoon for its passengers.

ERGONOMICS

The N-ZO's are leisure boats to share and entertain comfortably. Whether at anchor or cruising, every aspect of this boat has been designed to ensure comfort:

- the layout of the deck has been optimized to make moving onboard easier and safer.
- The "air console" (N-ZO 600 / N-ZO 680) allows for more mobility and comfort on deck.
- The N-ZO range is equipped with a new system of front "reverse & sun" loungers which allows the installation of a large sun-bathing area in just a few seconds, just by unfolding its structure.

SPECIFICATIONS

CLASSIC

THE ORIGINAL

PRACTICAL

Worthy heir of the first Zodiac boats, it kept all of their qualities: safe, stable and strong. Easy to manipulate ashore, with a pair of wheels for launching on water, it's easily maneuverable on protected sea areas; its small draught allowing it to access and "beach" on spots otherwise inaccessible to other boats.

ECONOMICAL

Equipped with a low-power engine, it reaches honorable performances - for a low budget for fuel and upkeep.

FOLDABLE

Entirely foldable, once folded and stored in its two bags, only a few sq. Meters are needed for winter storage; always ready to follow you for new explorations. Available with a wooden or aluminum floor.

CLASSIC MARK II

CLASSIC MARK II C

FUTURA

MASTER OF THE SEA

SPORTY

True master of the seas, its piloting provides extreme sensations. Its patented hull made of 2 additional lateral buoyancy tubes procures an extraordinary stability in small turns and absorbs with comfort small waves at full speed.

FUN

According to your lifestyle, choose the anodized aluminum, perfectly rigid version, for a loaded use; or choose the inflatable floor version for perfect practicality without sacrificing performances: unfold. Inflate. Go!

FOLDABLE

The Futura is offered with a fast roller inflatable floor (FR). The aluminum version can be equipped with an ingenious cockpit, fixed without tools on the railings of the floor, allowing a free and adjustable position.

RIGID-HULLED

CADET RIB POLYESTER

Elegance and strength

Built to last and generously spacious, a Cadet Rib will elegantly complete your boat. Equipped with large-diameter tubes, they're particularly stable and able to carry many goods and passengers while keeping them dry. Their polyester deep-v-hull allow them to easily lift off water and gain comfort in small waves. Available in two colors, in Strongan™ or Hypalon™ fabric, for intensive use in tropical zones.

RANGE
260 | 290 | 310 | 340 | 390

CADET RIB ALU

Lightness and robustness

Zodiac nautic completes its tender range with a new line of aluminum hulls. These ultra-light tenders are easy to handle and have a low impact on the davits of your boat. The large diameter tubes ensure stability, and the ability to plane quickly and easily so everything in your boat remains safe and dry.

CADET COMPACT

A rigid - hull in a bag

Once deflated, the Cadet Compact occupies very few space thanks to its foldable transom (Zodiac Nautic patent); it's simply stored flat in a specific bag. Its launch is extremely fast: just inflate it, install the rows and put it on the water! Very light and rot-resistant, thanks to the RIMTEC process (Reinforced Injection Molding Technology), its hull offers good stability: a Zodiac Nautic exclusivity.

TENDERS

FOLDABLES

CADET FASTROLLER

The must-have foldable tender

Equipped with the Acti-V concept (Zodiac Nautic patented technology), the hull of the Cadet Fastroller is thinner and more distinct, and the H2P floor is more rigid. The result: an easy launch by inflations, a mastered piloting and a firm course holding never attained before on this type of tender. All its structural elements are welded, including its rubstrake, its transom and the fabric bottom. The experts will appreciate the technical performance and the direct impact on security and durability of the product.

RANGE
285 | 325 | 360

CADET

The market's standard

Setting the foundation for the market's standard through utilization of the best materials, and an assembly by welding the buoyancy tubes, guarantees optimal resistance and durability. With a complete range of accessories, you can find the best patented Zodiac Nautic products such as the rowlock and its tridimensional adjustment or the internal command drain plug, more practical and safer to use. Available in three floor versions (depending on the size), to select linked to the load capacity available onboard.

LIFERAFT

Compact, complete and evolvable

At the cutting edge of safety, the Zodiac liferafts are made and manufactured according to the ISO 9650 norm.

The open sea range is adapted to high-sea navigation and temperature conditions from -15°C to 65°C; it includes an inflatable hoop, a semi-rigid boarding ramp and an insulating floor. The coastal range, lighter and more compact, are adapted to milder conditions of coastal navigation. They include a tent, maintained by a double fiberglass hoop.

Conditioned in waterproof bags, available in soft or solid container, the Zodiac liferafts are guaranteed for 12 years. They benefit, for their revision, from the largest network of service stations in the world, as well as trustworthy experts, trained by us.

OPEN SEA ISO 9650 HIGH-SEA
Nb of passengers: 4-6-8-10

COASTER ISO 9650 COASTAL
Nb of passengers: 4-6-8

SUP

To sail alone or with the family, the paddles are a pleasure for young and old thanks to their great stability. These inflatable paddles can also be used as an annex when anchoring.

ACCESSORIES

A complete range

Our accessories benefit from all the attention the brand gives to the study of its products. They are made with the same care and live up to the same quality and reliability requirements than our boats.

You can equip your boat with a wide range of accessories: such as sun loungers, sunroofs, ski poles, shower kits, etc.
Find out more with your Zodiac agent!

The Zodiac Nautic boutique offers a large choice of derived products to show your love of the Zodiac brand and community: gear, luggage, etc.

Access the entire range of Zodiac products and accessories on:
